

International Call for Papers
& Conference On Risk management
as an Interdisciplinary Approach

WORKSHOP ON RISK MANAGEMENT

Organized by:

Industrial Engineering
Department

Supported by:

Who is the course suitable for?

- **Personnel of risk management function;**
- **Risk management professional certification holders;**
- **All individuals who are involved or interested in enterprise risk management practices.**

5 Reasons to attend the course:

- **1 Registration for 2 trainings**

One registration fee is applied for 2 different trainings on April 23 & 24.

- **1 Price for workshops and conference**

The trainings are held during joint conference of 1st International Conference on Risk Management as an Interdisciplinary Approach and 6th Annual Conference on Industrial & Engineering System. By becoming training participant, you are welcome to join the plenary sessions of the conference. In addition, you can choose only to attend 1 training and exchange your seat on the other day's class with the opportunity to attend the conference and enjoy the panel discussions on more than a hundred academic research papers that cover a wide range of technical aspects in industrial engineering and risk management area, e.g. HIRA DC (Hazard Identification, Risk Assessment, and Determining Control), FMEA (Failure Mode Effect Analysis), AHP (Analytical Hierarchy Process), CIMOSA Analysis, Relative Importance Index, Service-Oriented Analysis, Bow Tie Analysis, and many more.

- **Opportunity for a fast-track risk management professional certification QRMA**

This course is also designed as a fast-track preparatory training for Qualified Risk Management Analyst (QRMA) endorsed by LSP MKS. By attending both trainings on Day-1 and Day-2, you are eligible to apply for QRMA certification exam on April 25, held at University of Diponegoro, Semarang. Additional charge for the exam is applied*

- **PDUs for professional certification**

For those who hold risk management certification from LSP MKS, attending the course and the conference will also make you eligible for Professional Development Units** to maintain the validity of your professional certification.

- **Become a member of risk management association**

Training participant will also be eligible for 50% discount for annual membership fee of Indonesia Risk Management Professional Association (IRMAPA). By becoming member, you can enjoy the benefits from being a part of the largest community of cross-sectoral risk management professionals in Indonesia, e.g. participating regular roundtable discussions free of charge, etc.

**) Exam fee Rp. 4.500.000,-*

***) 16 Units for attending 2 trainings; 26 Unit for attending 1 training and panel discussions of the conference.
Only applied for risk management certifications endorsed by LSP MKS*
