# Risk Beyond: --- Reimagine the Future

## Digital Experience Conference

In a year full of surprises, we urgently need to reimagine the future. Reimagine how to deliver resilience that most organizations need in the short term and build the business architecture to thrive in a changing world. A critical edge in a rapidly changing and challenging environment could be gained if the organization can process more combinations of possible outcomes and futures faster than our competitors. The ability and agility in reimagining the new practice of Governance, Risk Management, and Compliance (GRC) in the sea of countless possibilities will differentiate winners and losers in this disruption era. Having a better understanding of what has happened, what is happening today, and what could happen tomorrow allows you to create business solutions that run faster, use less energy and space, and, crucially, cost less.

Risk Beyond 2020 is the tenth International Conference in Enterprise Risk Management presented by ERMA. It is designed to provide risk management practitioners around the world an extensive insight into various GRC issues that organizations face towards 2021 and beyond. With hundreds of leading risk practitioners and decision-makers from around the world, Risk Beyond 2020 offers its participants a special opportunity to gain valuable insights on the best practices of Governance, Risk Management, and Compliance right from the very source.

## Overview ---

Risk Beyond 2020, International Conference on Enterprise Risk Management 2020 will be held on December 7-10th, 2020 virtually.

The four-day virtual conference will have keynote sessions, panel discussions, and breakout sessions. For the breakout sessions, each participant is free to choose their most desired sessions. Participants will have the opportunity to delve deep, explore their topic of interest, and participate more actively.

In Risk Beyond 2020 International Conference, risk professionals would be able to devote four full days in the company of more than 300 national and regional risk management professional peers, within a learning and sharing environment. Thus, it is an excellent place to exchange experiences and knowledge.

# Conference Session

With the theme of “Risk Beyond: Reimagine the Future”, this program is designed to provide risk management practitioners a comprehensive insight into various issues and challenges that organizations face in the era full of disruption. This event facilitates discussion and knowledge sharing with the speakers and participants from various backgrounds concerning the issues that have been faced by risk management practitioners.

This event introduces a variety of topics such as:

- Governance Reimagined: Organizational Design, Risk and Value Creation
- How to Address The Complexities of Our Emerging Future?
- Online Everywhere! - is Offline Business Model Still Needed?
- Reimagine the Future of Higher Education.
- Risks Trend in The Past vs Now vs Future
- How to be Ready When Unpredictable Risks Happen Out of Nowhere?
- Think in Terms of What If?
- Reposition Today (Resilience - Relevance) and Create Tomorrow (Growth, Firm of the Future)
- Future Economic System: Move Towards Hybrid Economy and Create Collaborative Commons
- Shifting Management Paradigm: Sense and Respond
- Built for a New Era - GRC Perspectives
- Taking Control of Creating our Future

*\*Some topics are subject to confirmation. The organizer retains the right to change, add and modify the topics without prior notice.*

## Why Attend?

Risk Beyond 2020 International Conference is the ideal interface for expert and practitioners from business, economics, technology, and other fields to create synergies to govern and manage risk. The program will provide insight on how risk management and risk governance creates stability and continuity of businesses by accommodating discussions through experience sharing on various issues from various perspectives.

## Who Should Attend?

Risk Beyond 2020 International Conference is designed to meet the needs of risk professionals from various corporate functions including Board Members, C-level Officers, Directors, Managers, and Heads of Department in Regulatory and Supervisory Authorities, Auditing, Finance, Compliance, IT Auditing, Information Technology, Corporate Governance, Corporate Affairs, and many other corporate functions.
