## RISK BEYOND

# Cultivating The Perception: MANAGING IT OR BEING DRIFTED AWAY

---

It is widely believed that the advancement of technology does not only bring many risks and problems but also gives us opportunities to expand and extend our business. These disruptions have shifted out perceptions, as humans, of how the world works--they are coming in with a lot of moot points along the way, in particular around ethics and the value of humanity itself. This year's topics cover issues and challenges in governance, risk and compliance (GRC) practices incorporating the rise of disruptive technology such as distributed ledger, artificial intelligence, extended reality, and quantum computing (DARQ), and also the urgency of the sustainable development goals (SDGs).

Risk Beyond 2022 is the twelfth International Conference in Enterprise Risk Management presented by ERMA. It is designed to provide risk management practitioners around the world an extensive insight into various GRC issues that organizations face while cultivating shifted perceptions. After battling with the pandemic for 2.5 years, we are back and Risk Beyond 2022 will be held fully onsite in Bali. We need to embrace the new normal in this globalization era. It is time to build our resiliency to bounce back for a better future. With hundreds of leading risk practitioners and decision makers from around the world, Risk Beyond 2022 offers its participants a special opportunity to gain valuable insights on the best practices of Governance, Risk Management, and compliance right from the very source.

# Overview

Risk Beyond International Conference on Enterprise Risk Management 2022 will be held on December 8-9, 2022, taking place at the beautiful and luxurious The Anvaya Beach Resort Bali, Indonesia.

The two-day conference will have keynote sessions, panel discussions, breakout sessions, networking breaks, and exhibition booths. For the breakout sessions, each participant is free to choose their most desired sessions. Participants will have the opportunity to delve deep, explore their topic of interest, and participate more actively.

In the Risk Beyond 2022 International Conference, risk professionals would be able to devote two full days in the company of more than 300 national and regional risk management professional peers, within a learning and sharing environment. Thus, it is an excellent place to exchange experiences and knowledge.

## Registration & Program Fee

# Conference Session

With the theme of **"Cultivating the perception: Managing it or being drifted away"**, this program is designed to provide risk management practitioners a comprehensive insight into various issues and challenges that organizations face in this digital era. This event facilitates discussion and knowledge sharing with the speakers and participants from various backgrounds concerning the issues that have been faced by risk management practitioners.

This event introduces a variety of topics such as:

- **The Importance of shifted perceptions in a journey to a sustainable world**
- **Optimizing innovation pathways through GRC**
- **Future of technologies: How DARQ changes ERM Perspectives**
- **Digital transformation pitfalls: Privacy and data protection**
- **Anticipate the technopolar moment: When digital power shapes the global order**
- **Developing e-government: A Vehicle to a good public governance**
- **Blind spots on sustainability promises**
- **Economic Value of peace and prioritizing human rights**
- **Cultivating resilience in the aftermath**

## Why Attend?

Risk Beyond 2022 International Conference is the ideal interface for experts and practitioners from business, economics, technology, and other fields to create synergies to govern and manage risk. The program will provide insight on how risk management and risk governance creates stability and continuity of businesses by accommodating discussions through experience sharing on various issues from various perspectives.

## Who Should Attend?

Risk Beyond 2022 International Conference is designed to meet the needs of risk professionals from various corporate functions including Board Members, C-level Officers, Directors, Managers, and Heads of Department in Regulatory and Supervisory Authorities, Auditing, Finance, Compliance, IT Auditing, Information Technology, Corporate Governance, Corporate Affairs, and many other corporate functions.
