**ERMA
INTERNATIONAL
CONFERENCE
ON ERM**

The rapidly evolving business landscape presents us with unprecedented challenges and opportunities. We find ourselves facing an array of emerging risks and disruptive forces that require bold, forward-thinking strategies to navigate successfully. The theme “into the unknown” encapsulates the need for organizations to embrace the uncertain and the unfamiliar, stepping beyond conventional risk management practices to drive innovation and growth. Charting the future agenda requires us to shift our focus from reactive risk mitigation to proactive risk intelligence. We must equip ourselves with the tools, insights and foresight needed to anticipate, adapt to, and even leverage the risks that lie ahead.

Risk Beyond 2023 is the thirteenth International Conference in Enterprise Risk Management presented by ERMA. It is designed to provide risk management practitioners around the world an extensive insight into various GRC issues that organizations face while cultivating shifted perceptions. With hundreds of leading risk practitioners and decision makers from around the world, Risk Beyond 2023 offers its participants a special opportunity to gain valuable insights on the best practices of Governance, Risk Management, and compliance right from the very source.
